Green Eagle
S9 PINK GRADE

Ciri-Ciri dan Faedah

- Meningkatkan keseimbangan fisio-kimia tanah.
- Menggalakkan kegiatan mikroorganisma dalam tanah.
- Menggalakkan pertumbuhan akar untuk menyerap nutrien yang lebih baik.
- Kewujudan mikronutrien, asid amino, asid humus meningkatkan penampilan, kualiti, rasa dan jangka hayat organ buah dan sayur-sayuran.
- Meningkatkan toleransi tumbuhan terhadap tekanan, serangga perosak dan penyakit.
- Amino Ammonium Sulfat membolehkan nutrien lain tahan lama dalam tanah.
- Meningkatkan kuantiti dan kualiti buah.
- Meningkatkan kualiti buah untuk gred eksport.

特點與優勢

- 促进土壤物理及化学性质的平衡。
- 促进土壤微生物的活动。
- 促进根部的发展，以吸收更多养分。
- 所含的微量元素、氨基酸、腐植酸提升水果及蔬菜器官的外表、品质、风味及储存期。
- 提高作物抗逆及抗病虫害的能力。
- Amino Ammonium Sulfate 使土壤中的其它养分更耐久。
- 提高果实的数量及品质。
- 提升果实品质至出口标准。

Features & Benefits

- improves the physio chemical balance of the soil.
- promotes soil micro-organism activities in the soil.
- stimulates root development for better nutrients absorption.
- presence of trace elements, amino acid, humic acid improves the appearance, quality, taste, longer shelf-life of fruits and vegetables plants organ.
- increases the tolerance of crops to stress, pests and diseases.
- Amino Ammonium Sulfate enables other nutrients to last longer in soil.
- increases quantity and quality of fruits.
- upgraded fruits for export quality.

Recommended rate / 推荐用量 / Penggunaan Disyorkan

Tanaman / 作物 / Crops	Rate / Ha / interval
Fruity vegetables (chilli, beans, cucumber, corn etc)	165 kg - 300 kg / Ha / 7 -10 days
Potted plants	5 gm - 50 gm / 10 - 14 days
Landscape plants (sprinkler or spreading)	250 kg - 350 kg / Ha / 10 - 21 days
Durian trees 5 year above	1 kg - 5 kg / per tree / every month once before blooming
Other fruits trees	500 gm - 3 kg / per tree / 14 -21 days
